Dan Daniska
Assistant City Planner /
Inland Wetlands Agent

December 4, 2020

Mr. Patrick McLaughlin, PE
Director of Public Works
50 Clinton Avenue
Norwich, CT 06360

Re: IWWCC #20-16: Sherman Street Bridge

Dear Mr. McLaughlin,

At a meeting held on December 3, 2020, the Norwich Inland Wetlands, Watercourses & Conservation Commission approved the IWWC Application #20-16 with the following conditions:

- That the approval is valid for FIVE YEARS and will expire on 12/03/2025.
- That the required bond, if deemed necessary by the City Engineer, be submitted for Erosion and Sediment Control and Site Restoration. Bonds must be submitted in a form acceptable to the City (check or letter of credit) prior to any land disturbance activities occurring.
- That final revised plans be submitted and reviewed by City Staff.
- That the City's letter of approval be placed on the final revised plan set (cover page preferred).
- That all site activities shall be conducted in accordance with the plans, specifications and documents of record. Any deviation from the approved plans or construction sequence shall be cause for enforcement action by the Inland Wetlands, Watercourses and Conservation Commission.
- That the permittee shall notify the Inland Wetlands Agent prior to the commencement of work and upon its completion.
- That all work and all regulated activities conducted pursuant to this authorization shall be consistent with the terms and conditions of this approval. Any structures, excavation, fill, obstructions, encroachments or regulated activities not specifically identified and authorized herein shall constitute a violation of this approval and may result in its modification, suspension, or revocation. Upon initiation of the activities authorized herein, the permittee thereby accepts and agrees to comply with the terms and conditions of this approval.
- That no equipment or materials including without limitation fill, construction materials, or debris, shall be deposited, placed, or stored in any wetland or watercourse on or off site unless specifically authorized by this approval.

- That the General Provisions stated in Section 11.9 of the Inland Wetlands and Watercourse Regulations are applicable to this permit.
- That the permit shall not be assigned or transferred to another entity without the written permission of the Commission.
- That all erosion and sediment control measures shall be in accordance with the Connecticut Guidelines for Erosion and Sediment Control. Erosion and sediment control measures shall be installed and inspected prior to site disturbance. It is the permittee's responsibility to schedule the inspection with the Norwich Planning Department. Additional erosion and sediment control measures shall be installed if determined to be necessary by the Designated Agent. The permittee shall take such necessary steps consistent with the terms and conditions of the approval, to control stormwater discharges and to prevent erosion and sedimentation and to otherwise prevent pollution of wetlands and watercourses.
- That this permit will be strictly enforced. The Commission may suspend or revoke this permit, may direct the Commission's Agent to issue a cease and desist order or may require the applicant to modify, extend, or revise the site work or restore the area to its original condition if it finds that the applicant has not complied with the conditions set forth in this approval or if the applicant exceeds the scope of this approval as set forth herein or if the intended use or actual use of the general site is not as represented by the application or the plan of record.

Please place a copy of this letter on the Final Plans that are required as part of the approval of the application.

Should you have any questions, please contact me at (860) 823-3745 x3773.

Sincerely,

A handwritten signature in black ink, appearing to read 'Dan Daniska', with a stylized flourish at the end.
