5. Obligation of Bidder

At the time of the opening of bids each bidder will be presumed to have inspected the site and to have read and to be thoroughly familiar with the Contract Documents (including all addenda). The failure or omission of any bidder to examine any form, instrument, or document shall in no way relieve any bidder from any obligation in respect of its bid.

6. Information not Guaranteed

All information given in the Contract Documents relating to subsurface and other conditions, natural phenomena, existing pipes, and other structures is from the best sources at present available to the OWNER. All such information is furnished only for the information and convenience of bidders and is not guaranteed.

It is agreed and understood that the OWNER does not warrant or guarantee that the subsurface or other conditions, natural phenomena, existing pipes, or other structures encountered during construction will be the same as those indicated in the Contract Documents.

It is further agreed and understood that no bidder or CONTRACTOR shall use or be entitled to use any of the information made available to it or obtained in any examination by it in any manner as a basis of or grounds for any claim or demand against the OWNER or ENGINEER, arising from or by reason of any variance which may exist between the information made available and the actual subsurface or other conditions, natural phenomena, existing pipes or other structures actually encountered during the construction work, except as may otherwise be expressly provided for in the Contract Documents.

All information given to bidders other than by means of the plans, specifications, or by addenda, as described below, is given informally and shall not be used as the basis of a claim against the OWNER or ENGINEER. Questions related to the bid process can be addressed to Sandra Strassel, Procurement Officer, at (508) 747-1620, ext. 10107.

Every request for such interpretation should be in writing (type, not handwritten) addressed to the OWNER and emailed to sstrassel@plymouth-ma.gov, and to be given consideration must be received at least five (5) working days prior to the date fixed for the opening of bids.

Addenda: If you received Bid Documents from the Town and provided the Town with an accurate email address for delivery of addenda, the Town intends to deliver notification of each addendum to you at such email address, but the Town shall not be responsible for any failure of a bidder to receive any addenda for any reason. All addenda will be available on the Town's website at www.plymouth-ma.gov/bids-current.

Any and all such interpretations and any supplemental instructions will be in the form of written addenda to the specifications which, when issued, will be emailed to all prospective bidders to email addresses furnished by them for such purposes. Failure of any bidder to receive any such addendum or interpretation shall not relieve such bidder from any obligation under its bid as submitted. All addenda so issued shall become part of the Contract Documents.

10. Bid Opening Procedure

The following list of requirements shall be met by each filed bid:

- Bids shall be filed at the place and before the time specified in Receipt and Opening of Bids, above.
- Properly executed bid security shall be placed in a sealed envelope and shall be attached to the outside of the envelope containing the bid.
- The bid and all accompanying documents so required shall be signed by the Bidder or its authorized representative before submission.
- All bidders shall include with their bids written acknowledgement of receipt of all addenda, on the Bid Form.

All bids submitted will be posted to the Procurement Department website.

11. Comparison of Bids

Bids will be compared on the basis of the quantities and unit and lump sum prices stated in the bid forms.

In the event that there is discrepancy on the Bid Form between the lump sum or unit prices written in words and figures, the prices written in words will govern.

The OWNER agrees to examine and consider each Bid Form submitted in accordance with the terms and conditions set forth herein.

12. Statutes Regulating Competitive Bidding

Any bid which does not comply with the provisions of M.G.L. c.30 §39M as amended need not be accepted and the OWNER may reject every such bid.

13. Right to Reject Bid

The OWNER may consider informal any bid not prepared and submitted in accordance with the provisions hereof and may waive any informalities or reject any and all bids, should the OWNER deem it to be in the public interest to do so.

The OWNER may also reject bids which in its sole judgement are either incomplete, conditional, obscure or not responsive or which contains additions not called for, erasures not properly

initialed, alterations, or similar irregularities, and may reject bids for any other reason permitted by law, or the OWNER may waive such omissions, conditions or irregularities.

14. Ability and Experience of Bidder

No award will be made to any bidder who can not satisfy the OWNER that it has sufficient ability and experience in this class or work and sufficient capital and plant to enable it to prosecute and complete the work successfully within the time names. The OWNER's decision or judgement on these matters will be final, conclusive, and binding to the fullest extent permitted by law.

The OWNER may make such investigations as it deems necessary, and the bidder shall furnish to the OWNER, under oath if so required, all such information and data for this purpose as the OWNER may request.

15. Conditions of Work

Each bidder must inform itself fully of the conditions relating to the construction of the project and the employment of labor thereon. Failure to do so will not relieve a successful bidder of its obligation to furnish all material and labor necessary to carry out the provisions of its contract. Insofar as possible the CONTRACTOR, in carrying out its work, must employ such methods or means as will not cause any interruption of or interference with the work of any other contractor.

16. Payment Bond

Simultaneously with delivery of the executed Contract, the CONTRACTOR shall furnish a surety bond for the payment of all persons performing labor and materials under this Contract in the amount of fifty percent (50%) of its bid. The surety on such bond shall be a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the OWNER. The bond shall remain in force for one (1) year after final acceptance of the work by the OWNER, unless the OWNER, in writing, releases the CONTRACTOR from the obligation sooner.

17. Power of Attorney

Attorneys-in-fact who sign Contract bonds must file with each bond a certified and effectively dated copy of their power of attorney.

18. Laws and Regulations

Applicable provisions of Massachusetts General Laws and Regulations and the United States Code and Code of Federal Regulations govern this Contract and any provision in violation of the foregoing shall be deemed null, void and of no effect. The bidder's attention is directed to the fact that all applicable State laws, municipal ordinances or bylaws, and the rules and regulations of all authorities having jurisdiction over construction of the project shall apply to the Contract throughout, and they will be deemed to be included in the Contract the same as though herein written out in full.

In the event of any conflict between provisions of law or regulation quoted or paraphrased in the Contract Documents, the actual provisions of law or regulation shall control.

19. Liquidated Damages for Failure to Enter into Contract

The successful bidder, upon its failure or refusal to execute and deliver the Contract, Bonds and Certificates of Insurance required within 10 days after receipt of the notice of the acceptance of the bid, shall, except as otherwise provided by applicable law, forfeit to the OWNER, as liquidated damages for such failure or refusal, the security deposited with its bid, provided that the amount forfeited shall not exceed the difference between its bid price and the bid price or the next lowest responsible and eligible bidder. In case of death, disability, bona fide clerical or mechanical error of a substantial nature, or other similar unforeseen circumstances affecting the bidder, its bid deposit will be returned.

20. Indeterminate Items and Estimated Quantities

The work to be done under this Contract has been divided into parts or items, if applicable, to enable each bidder to bid on different portions of the work in accordance with its estimated of their cost and so that the actual quantity of work executed under each item may be paid for at the price bid for that particular item, even though each bidder may have judged that such quantity may be greater or less than the estimated quantity stated on the Bid Form.

21. CONTRACTOR Records

The CONTRACTOR shall comply with the provisions of M.G.L. c.30 §39R, concerning CONTRACTOR records.

22. Bidder Certification – OSHA Training

All employees who work on Massachusetts public works construction sites, on projects estimated to cost more than \$10,000.00, must have no less than ten (10) hours of OSHA-approved safety and health training.

The Massachusetts Attorney General is authorized to restrain award of construction contracts to any contractor who is in violation of this requirement and to restrain the performance of these contracts by non-complying contractors.

Noncompliance with this law will disqualify contractors from bidding on public contracts.

23. Prevailing Wage Rates

Prevailing Wage Rates as determined by the Director of the Executive Office of Labor and Workforce Development under the provision of M.G.L. c.149 §26 to 27H, as amended, apply to this project. It is the responsibility of the bidder, before bid opening, to request if necessary, any additional information on Prevailing Wage Rates for those trades people who may be employed for the proposed work under this contract.

The Contractor is responsible for requesting up to date wage rates from the Owner prior to the one-year anniversary of the notice to proceed of this contract. The Owner shall obtain updated wage rates from the Director and provide them to the Contractor upon said request.

Applicable conditions of Massachusetts General Laws and Regulations and/or the United States Code and Code of Federal Regulations govern this Contract and any provision in violation of the foregoing shall be deemed null, void and of no effect. Where conflict between the Code of Federal Regulations and State Laws and Regulations exist, the more stringent requirement shall apply.

Federal Wage Rates as determined by the United States Department of Labor under the Davis-Bacon Act also apply to this project.

24. Price Adjustments

This Contract is subject to the provisions for material price adjustments in accordance with M.G.L. c.30 §38A.

The bidder's attention is directed to all applicable State Laws, Town Bylaws, and rules and regulations regarding affirmative action/equal employment opportunity requirements. Failure of a bidder to comply with any such law, bylaw, rule or regulation shall constitute grounds for the Town to reject a bid or to otherwise reject or terminate the award of the contract pursuant to these contract documents.

27. Bid Status Information

A register of Bids, when available, will be posted on the Town's website at www.plymouth-ma.gov/procurement-division/pages/bids-results.

SPECIAL CONDITIONS

EQUIPMENT: The Contractor shall furnish equipment which will be effective, appropriate and large enough to secure a satisfactory quality of work and a rate of progress which will ensure the completion of the work within the time stipulated in the Bid Documents. If at any time such equipment appears to the Town to be inefficient, inappropriate or insufficient for securing the quality of work required or for producing the rate of progress aforesaid, the Town may order the Contractor to increase the efficiency, change the character or increase the equipment, and the Contractor shall conform to such order. Failure of the Town to give such order shall in no way relieve the Contractor of their obligations to secure the quality of the work and rate of progress required.

WORK HOURS: Normal work hours will mean up to five (5) 8-hour days, Monday through Friday. In order to work hours not within this span for the Contractor's benefit, they shall request a written authorization to be approved by the Town. For work outside the normal day, work on Saturdays, Sundays or legal holidays, if any be performed, the Contractor will receive no extra payment, but compensation shall be considered as having been included in the prices as stipulated for the appropriate items of work as listed in the bid.

APPROVAL OF MATERIALS: Only new materials and equipment shall be incorporated in the work. All materials and equipment furnished by the Contractor shall be subject to the inspection and approval of the Town. No materials shall be delivered to the worksite without prior approval of the Town.

The Contractor shall submit data and samples sufficiently early to permit consideration and approval before materials are necessary for incorporation in the work. Any delay of approval resulting from the Contractor's failure to submit samples or data promptly shall not be used as a basis of a claim against the Town.

SUBSTITUTES OF APPROVED "OR EQUAL" ITEMS: Whenever materials or equipment are specified or described in the Contract Documents by using the name of a proprietary item or the name of a particular supplier, the naming of the item is intended to establish the type, function and quality required. Unless the name is followed by words indicating that no substitution is permitted, materials or equipment of other suppliers may be accepted by the Town if sufficient information is submitted by the Contractor to allow the Town to determine that the material or equipment proposed is equivalent or equal to that named. Requests for review of substitute items of material and equipment will not be accepted by the Town from anyone other than the Contractor. If the Contractor wishes to furnish or use a substitute item of material or requirement, the Contractor shall make a written application to the Town for acceptance thereof certifying that the proposed substitute will perform adequately similar and of equal substance to that specified and be suited to the same use as that specified. The application will state that the evaluation and acceptance of the proposed substitute will not prejudice the Contractor's achievement of substantial completion on time, whether or not acceptance of the substitute for us in the work will require a change in any of the Contract Documents (or in the provisions of any other direct contract with the Town for work on the project) to adapt the design to the proposed substitute and whether or not incorporation of use of the substitute in connection with the work is subject to payment of any license fee or royalty.

All variations of the proposed substitute from that specified will be identified in the application and available maintenance, repair and replacement service will be indicated. The application will also result directly or indirectly from acceptance of such substitute, including costs of redesign and claims of other contractors affected by the resulting change, all of which shall be considered by the Town in evaluating

the proposed substitute. The Town may require the Contractor to furnish, at the Contractor's expense, additional data about the proposed substitute.

If a specific means, method, technique, sequence or procedure of construction is indicated in or required by the Contract Documents, the Contractor may furnish or utilize a substitute means, method, sequence, technique or procedure of construction acceptable to the Town if the Contractor submits sufficient information to allow the Town to determine that the substitute proposed is equivalent to that indicated or required by the Contract Documents. The procedure for review by the Town will be similar to that stated previously.

The town will be allowed a reasonable time within which to evaluate each proposed substitute. The Town will be the sole judge of acceptability, and no substitute will be ordered, installed or utilized without the Town's prior written acceptance which will be evidenced by either a change order or an approved Shop Drawing. The Town may require the Contractor to furnish, at the Contractor's expense, a special performance guarantee or other surety with respect to any substitute. The Town will record time required by the Town and Town's consultants in evaluating substitutions proposed by the Contractor, and in making changes in the Contract Documents occasioned thereby. Whether or not the Town accepts a proposed substitute, the Contractor shall reimburse the Town for the charges of Town's consultants for evaluating each proposed substitute.

TEMPORARY UTILITIES: The Contractor shall make all arrangements for and furnish at their expense all water, electric, telephone or other utility required by them for construction purposes.

LOCATION OF ALL UTILITIES: The location of the existing utilities must be established and verified by the Contractor. The Contractor shall make arrangements with the appropriate utility companies to have all existing utilities marked along the course of this work by such means, as necessary. The Contractor shall preserve such marked locations until the work has progressed to the point where the encountered utility is fully exposed or protected as required. It shall be the Contractor's responsibility to notify the proper authorities or utility before interfering therewith.

SAFETY CONTROL: The Contractor shall provide and maintain all required safety equipment such as barricades, detour barriers and signs, lights, walkways, fences, and fire prevention equipment. If at any time before the commencement or during the progress of work, or any part of it, such methods and procedures as used appear to the Town as unsafe, insufficient or improper, the Town may order the Contractor to increase their safety of efficiency or to improve their character,, and the Contractor shall conform to such orders. Failure of the Town to give such an order to increase such safety, efficiency, adequacy or any improvements shall not release the Contractor from their obligation to secure the safe conduct and quality of work specified. Notwithstanding the foregoing, nothing herein obligates the Town to perform any review or inspection of any of the Contractor's methods or procedures.

OCCUPATIONAL SAFETY AND HEALTH ACT: The Contractor's particular attention is called to the rules and regulations included in Public Law 91-596, known as the "Occupational Safety and Health Act of 1970" (OSHA).

MAINTENANCE OF TRAFFIC: The Contractor shall be responsible for the maintenance of traffic with the maximum of safety and practicable convenience to such traffic during the life of the contract whether or not work thereon has been suspended temporarily. The work shall be carried on in such a manner as to provide safe passage at all times for public travel and with least obstruction to traffic.

The convenience of the general public and of the residents along and adjacent to the work shall be provided for in an adequate and satisfactory manner.

Portable barrier fences with appropriate signs shall be used for safety control in establishing traffic patterns (detours, etc.). These portable barrier fences shall meet the approval of the Director of Public Works or their designee, provided that any such approval or lack thereof shall not relieve the Contractor of their obligation to use appropriate barrier fences.

Roadways, driveways and foot paths closed to the traffic shall be protected by suitable barricades and warning signs, and the Contractor shall provide and maintain adequate lights and illumination. Therefore, they shall be held responsible for all damage to the work due to any failure of signs and barricades to protect the work properly from traffic, pedestrians, animal or other causes.

POLICE DETAIL: The Contractor shall coordinate with the Plymouth Police Department the number of traffic police required in either the appropriate traffic management plan (TMP) template (see MassDOT's website at www.mass.gov/lists/construction-details) or deemed necessary for the direction and control of traffic within the site.

The Contractor shall submit the requested and signed police detail schedule as called in and arranged directly with the Police Department on a weekly basis. Police details will be paid directly by the Contractor. The Contractor shall be responsible for scheduling and canceling police details if not needed. It is the Contractor's responsibility to cancel a detail(s) at a minimum of four (4) hours in advance of the start of the shift if conditions so warrant. Police details not cancelled in time shall be paid for by the Contractor.

RESTORATION (WORK IN IMPROVED PROPERTY AREAS): The Contractor, at their own expense, shall care for, replace and restore to good condition, satisfactory to the Town, and public or private property (i.e. shrubs, hedges, trees, public or private ways, sewer drains, water or other pipes, catch basins, wires, buildings, fences, posts, poles, mailboxes, stone walls or other structures) negligently damaged by their work, equipment, or employees, to a condition at least equal to that existing immediately prior to the beginning of operations.

The Contractor shall also restore to original condition, or better, any lawn or other planted area interfered with, including fertilizing, loaming, and seeding as required, once again at the Contractor's expense.

Suitable materials, equipment and methods shall be used for such restoration.

Time for Completion and Liquidated Damages: It is hereby understood and mutually agreed, by and between the Contractor and the Owner, that the date of beginning and the time for completion of the work to be done hereunder are ESSENTIAL CONDITIONS of the Contract; and it is further mutually understood and agreed that the work embraced in this Contract shall be commenced on a date to be specified in the “Notice to Proceed”.

The Contractor agrees that said work shall be prosecuted regularly, diligently and uninterruptedly at such rate of progress as will ensure full completion thereof within the time specified. It is expressly understood and agreed, by and between the Contractor and the Owner, that the time for the completion of the work described herein is a reasonable time for the completion of the same, taking into consideration the average climatic range and usual industrial conditions prevailing in this locality.

If the said Contractor shall neglect, fail or refuse to complete the work within the time herein specified, or any extension thereof granted by the Owner, then the Contractor does hereby agree, as a partial consideration for the awarding of this Contract, to pay the Owner the amount specified in the Contract, not as a penalty but as liquidated damages for such Breach of Contract as hereinafter set forth, for each and every calendar day the Contractor shall be in default after the time stipulated in the Contract for completing the work.

The said amount of liquidated damages is fixed and agreed upon by and between the Contractor and the Owner because of the impracticability and extreme difficulty of fixing and ascertaining the actual damages the Owner would sustain in such event and said amount shall be retained from time to time by the Owner from current periodic estimates.

It is further agreed that time is of the essence of each and every portion of this Contract and of any specifications wherein a definite and certain length of time is fixed for the performance of any act whatsoever; and where under the Contract as additional time is allowed for the completion of any work, the new time limit fixed by such extension shall be of the essence of this

Contract. Provided, that the Contractor shall not be charged with liquidated damages or any excess cost when the Owner determines that the Contractor is without fault and the Contractor's reasons for the time extensions are acceptable to the Owner; provided further, that the Contractor shall not be charged with liquidated damages or an excess cost when the delay in completion of the work is due to:

- a. *Any preference, priority or allocation order duly issued by the government*
- b. *Unforeseeable cause beyond the control and without fault of negligence of the Contractor, including, but not restricted to, acts of God or the public enemy, acts of the Owner, acts of another Contractor in the performance of a contract with the Owner, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes and severe weather*
- c. *Any delays of subcontractors or suppliers occasioned by any of the causes specified in subsections (a.) and (b.) of this article.*

Provided further, that the Contractor shall within ten (10) days from the beginning of such delay, unless the Owner shall grant a further period of time prior to the date of final settlement of the Contract, notify the Owner, in writing, of the causes of the delay, who shall ascertain the facts and extent of the delay and notify the Contractor within a reasonable time of its decision in the matter. The amount of liquidated damages for this project shall be Five Hundred Dollars (\$500.00) per consecutive calendar day.

21. Correction of Work: All work, all materials, whether incorporated in the work or not, all processes of manufacture, and all methods of construction shall be at all times and places subject to the inspection of the Director of Public Works or their designee, who shall be the final judge of the quality and suitability of the work, materials, processes of manufacture and methods of construction for the purposes for which they are used. Should they fail to meet the Director's approval, they shall be forthwith reconstructed, made good, replaced and/or corrected, as the case may be, by the Contractor at their own expense. Rejected materials shall immediately be removed from the site. If, in the opinion of the Director of Public Works, it is undesirable to replace any defective or damaged materials or to reconstruct or correct any portion of the work injured or not performed in accordance with the Contract Documents, the compensation to be paid to the Contractor hereunder shall be reduced by such amount as in the judgement of the Director shall be equitable.
22. Subsurface Conditions Found Different: Should the Contractor encounter subsurface and/or latent conditions in the site materially differing from those shown on the Plan or indicated in the Specifications, they shall immediately give notice to the Director of Public Works of such conditions before they are disturbed. The Director of Public Works will thereupon promptly investigate the conditions, and if they find that they materially differ from those shown on the Plans or indicated in the Specifications, will at once make such changes in the Plans and/or Specification as they may find necessary, any increase or decrease of cost resulting from such changes to be adjusted in the manner provided in Paragraph 19 of the General Conditions.
23. Right of the Owner to Terminate Contract: The Owner may terminate this Contract by providing the Contractor and the Surety with ten (10) days written notice specifying the reasons for termination as outlined below:
 - a. Violation of any of the provisions of this Contract by the Contractor or any of their subcontractors

- b. A determination by the Owner that the Contractor has engaged in fraud, waste, mismanagement, misuse of funds, or criminal activity with any funds provided by this Contract.
- c. Failure of the Contractor, for any reason, to fulfill in a timely and proper manner their obligations under this Contract, including compliance with applicable Federal, State and/or local law or regulations, and such procedures or guidelines as may be established.

In the event if any such termination, the Surety shall have the right to take over and perform the Contract; provided, however, that if the Surety does not commence performance within ten (10) days from the date of the mailing to such Surety of notice of termination, the Owner may take over the work and prosecute the same to completion at the expense of the Contractor, and the Contractor and their Surety shall be liable to the Owner for any excess cost occasioned by the Owner thereby, and in such event the Owner may take possession of and utilize in completing the work, such materials, appliances and plants as may be on the site of the work and necessary therefore.

If the Owner determines that a continuation of work on the project would endanger the life, health or safety of those working or living at or near the project site, or that immediate action is necessary to protect public funds and/or property, the Owner may suspend work or terminate this agreement by providing notice to the Contractor in the form of a telegram, mailgram, hand-carried letter, or other appropriate written means.

In addition, notwithstanding anything to the contrary in the Contract, the Owner may also terminate this Contract for its conveniences, including due to the lack of sufficient funds to complete the work. In such event, the Owner shall provide written notice of termination to the Contractor, and the Contractor shall thereupon cease all work other than work that is required to make the work and surrounding property safe, and the Owner shall pay the Contractor for all work performed in accordance with the terms of the Contract up to the date of the Contract, provided the Contractor shall not be entitled to any termination (or similar) damages or other costs and expenses that may be associated with a termination for convenience.

24. Payments to the Contractor:

- a. Not later than the tenth (10th) day of each calendar month, the Owner shall make a progress payment to the Contractor on the basis of a duly certified and approved estimate of the work performed during the preceding calendar month under this Contract, but to insure the proper performance of the Contract, the Owner shall retain five percent (5%) of the amount of each estimate until final completion and acceptance of all work covered by this Contract; provided that the Contractor shall submit their estimate not later than the first (1st) day of the month; provided further that on completion and acceptance of each separate building, public work or other division of the Contract, on which the price is stated separately in the Contract, payment may be made in full, including retained percentages thereon, less authorized deductions.
- b. In preparing estimates, the material delivered on the site and preparatory work done may be taken into consideration.

Indemnification: The Contractor shall comply with the requirements of all applicable laws, rules and regulations in connection with the services of the Contractor, and shall exonerate, indemnify and hold harmless the Owner's officers, agents, and all employees from and against them, and local taxes or contributions imposed or required under the Social Security, Worker's Compensation, and Income Tax laws. Further, the Contractor shall exonerate, indemnify and

26. Acceptance of Final Payment Constitutes Release: The acceptance by the Contractor of final payment shall be and shall operate as a release to the Owner of all claims and liability to the Contractor. No payment, however, final or otherwise, shall operate to release the Contractor or their Sureties from any obligations under the Contract or the performance and payment bond.
27. Insurance: The Contractor shall not commence work under this Contract until they have obtained all the insurance required in the Invitation to Bid and such insurance has been approved by the Owner, nor shall the Contractor allow any subcontractor to commence work on a subcontract until the insurance required of the subcontractor has been so obtained and approved.
28. Flood Disaster Protection: The Owner of land subject to acquisition or improvement under this Contract, and their successors or assigns, are hereby obligated to obtain and maintain, during ownership of the land which is the subject of this Contract, such flood insurance as required with respect to financial assistance of acquisition or construction purposes under §102 (a) of the Flood Disaster Protection Act of 1973. This obligation is binding notwithstanding the fact that construction on the land, which is the subject of this Contract, is not itself funded out of assistance provided under the Housing and Community Development Act of 1974.
29. Contract Security: The Contractor shall furnish a payment bond in an amount not less than fifty percent (50%) of the Contract Price or in a penal sum not less than that prescribed by State or local law, as security for the payment of all persons performing labor on the project under this Contract and furnishing materials in connection with the Contract.
30. Assignments: The Contractor shall not assign or subcontract the whole or any part of this Contract or any monies due or to become due hereunder without written consent of the Owner. In case the Contractor assigns all or part of any monies due or to become due under this Contract, the instrument of assignment shall contain a clause substantially to the effect that it is agreed that the right of the assignee in and to any monies due or to become due to the Contractor shall be subject to prior claims of all persons, firms and corporations of services rendered or materials supplied for the performance of the work called for in this Contract.
31. Authority of the Director of Public Works: The Director of Public Works or their designee shall give all orders and directions contemplated under this Contract and Specifications relative to the execution of the work. The Director or their designee shall determine the amount, quality, acceptability and fitness of the several kinds of work and materials which are to be paid for under the Contract and shall decide all questions which may arise in relation to said work and the construction thereof. The Director's estimates and decisions shall be final and conclusive, except as herein otherwise expressly provided. In case any question shall arise between the parties hereto relative to said Contract and Specifications, the determination or decision of the Director shall be a condition precedent to the right of the Contractor to receive any money or payment for work under this Contract affected in any manner or to any extent by such question.

The Director or their designee shall decide the meaning and intent of any portion of the Specifications and of any Plans or Drawings where the same may be found obscure or be in dispute.

32. Notice and Service Thereof: Any notice to any Contractor from the Owner relative to any part of this Contract shall be in writing and considered delivered and the service thereof completed when said notice is posted, by certified or registered mail, to the said Contractor at their last given address, or delivered in person to the said Contractor or their authorized representative on the work.
33. Subcontract: The Contractor will insert in any subcontracts the Federal Labor Standards Provisions and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts which they may enter into, together with a clause requiring this insertion in any further subcontracts that may in turn be made.
34. Interest of Member of or Delegate to Congress: No member of or delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of this Contract or to any benefit what may arise therefrom, but this provision shall not be construed to extend to this Contract if made with a corporation for its general benefit.
35. Other Prohibited Interest: No official of the Town of Plymouth who is authorized in such capacity and on behalf of the Town to negotiate, make, accept or approve, or to take part in negotiating, making, accepting or approving any architectural, engineering, inspection, construction or material supply contract or any subcontract in connection with the construction of this project shall become directly or indirectly interested personally in this Contract or in any part thereof. No officer, employee, architect, attorney, engineer or inspector of or for the Town who is authorized in such capacity and on behalf of the Town to exercise any legislative, executive, supervisory or other similar functions in connection with the construction of the project, shall become directly or indirectly interested personally in this Contract or in any part thereof, any material supply contract, subcontract, insurance contract or any other contract pertaining to the project.
36. Suspension of Work: Notwithstanding anything to the contrary in the Contract and related documents:

Should the work be delayed in any manner, for any reason, and by whomever caused, including but not limited to, due to the lack or delay of funding, and/or should the Owner be prevented or enjoined from proceeding with work either before or after the start of construction by any reason, including the absence of sufficient funds to complete the work, or as a result of any litigation or any other reason whether within or beyond the control of the Owner, the Contract shall not be entitles to any additional compensation or any other damages on account of any such delays, and shall not make or assert claim for such compensation or damages, whether such claims are titled, claims for delay damages, out of sequence work, acceleration of the work, hindrance, or otherwise; but time for completion of the work will be extended to such reasonable time as the Town may determine will compensate for time lost by such delay with such determination to be set forth in writing, and this shall be the Contractor's sole remedy on account of any delay.

37. Access to Records: The Contractor shall maintain accounts and records, including personnel, property and financial records, adequate to identify and account for all costs pertaining to the

Contract and such other records as may be deemed necessary by the Town to assure proper accounting for all project funds, both CDBG and non-CDBG shares. These records will be made available for audit purposes to the Owner or any authorized representative, and will be retained for three (3) years after final MSCP audit.
