

**PURCHASING**  
**CITY OF FALL RIVER**

Addendum #2

IFB #25-09 Quequechan River Rail Trail Phase 4A

Issued 09/13/2024

*Are there any liquidated damages for Completion?*

Damages are covered under Section 8:11, of the Massachusetts Department of Transportation – Highway Division Standard Specifications, 2024 Edition.

*What is the Warranty Period?*

Warranty standard 1 year from date of completion per Massachusetts Department of Transportation – Highway Division Standard Specifications, 2024 Edition.

*How much Retainage is Held?*

Retainage will be applied as referenced in the specifications and additionally through MGL Chapter 30, Section 39G.

*Please Clarify how the Police Details should be carried in the bid, and how they will be paid. The specifications state “The contractor is responsible for requests and paying for all necessary police details, including those deemed necessary by the Owner for the direction and control of traffic within site. These costs should be incorporated into the base bid amount including a \$20,000.00 allowance for traffic police detail services.” The only line item in the bid for police details is an Allowance for \$15,000.*

Please include the \$20,000.00. This corrects the itemized allowance amount of 15,000.00 on the Quantity Sheet.

If you require further clarification, please contact Purchasing at 508-324-2000.
